

Release Notes for airBridge CD Version 2.2
CD released on : 18 July 2005.

Setup Program

No new features added.

simpleMonitor Version 2.2

1. Validating password for Firmware upgrade; only Administrator is allowed

F/W Version 0.01.14

The new firmware release has a continuous monitoring system, which monitors the network connection and automatically recovers the connection if it detects a "lock out", that is where the connection to the network/internet stalls.
